

# Step up to the latest technology with **electronic digital comparators!**

## Mahr's Latest Upgrade Program

At Mahr, we have been dedicated to serving our customers' precision measurement needs for more than 160 years. To help illustrate our ongoing commitment to customers, we are introducing the "Step up to the Latest Technology" program, offering the opportunity to upgrade your old analog comparator, to a new Millimes 2000 W(i) and 2001 W(i) digital comparator.

**\$1,339**

### Features:

- First digital comparator with touch operation
- High precision inductive measuring system
- Protection rating IP 64
- High-precision ball-bearing guide
- Hardened glass touch screen
- Convenient tolerance functions
- Integrated Wireless
- Locking function prevents measurement errors
- Robust bearings for maximum performance and longevity
